Why ProFire Grills? In a word...**Craftsmanship**

DESIGN & CONSTRUCTION

- Proudly made in the USA
- Complete commercial grade stainless steel grill line available with a wide variety of price points and built to fit many common built-in openings
- Designed and built to withstand the harshest of coastal conditions
- First in the industry to use all stainless steel components throughout the entire grill
- One of the heaviest gauge heat plates in the industry

EASE-OF-USE

- Grills require almost no assembly
- ProFire's roll top lid design is well balanced and opens effortlessly
- Easily customize grills for specific needs and location by choosing from a variety of features and adding optional upgrades

WORRY-FREE PERFORMANCE

- **Backed by the most comprehensive lifetime warranty in the industry**
- Friendly and knowledgeable customer service specialists readily available for the lifetime of the grill

Burner Systems

Our burner systems are available on all ProFire Grill Models

Standard "Traditional" Burner System

Quality commercial grade 16-gauge stainless steel tube burners are paired with our 14-gauge stainless steel flavor plates, to distribute heat evenly over the entire grilling surface.

ProFire Briquette System

This works with our traditional burners to turn your grill into a true all briquette system. The briquettes, which cover the whole bottom of the grill, are placed at a greater distance from the cooking grate, translating into less flare-ups and a more even heat pattern. Since porcelain is a better conductor of heat this also means that our system will cook more reliably and produce better results.

« BRIQUETTE SYSTEM WITH HYBRID BURNERS

BRIQUETTE » SYSTEM WITH TRADITIONAL BURNERS

Hybrid Burner System

Offers the best of both worlds. Spacious 9"x14-3/4" Infrared burner paired with our traditional stainless steel burners. Infrared burners provide an intense heat that seals in meat juices and reduces flare-ups.

Advantages of Infrared

- Fast...heats up in approximately 3 minutes
- Intense heat—seals in meat juices for better flavor
- Time saver...heats up faster with shorter grilling time
- High intense heat reduces flare-ups by vaporizing juices instantly
- Spacious 9" x 14-3/4" Infrared Burner
- 32,000 BTU Output

INFRARED BURNER

STANDARD BURNERS

PROFIRE DLX SERIES GRILL HEADS

The **ProFire DLX Series**, complete with a sleek radius hood, interior halogen lights and a secondary cooking surface, these new American-made stainless steel models are packed with features, style and quality construction. Available in three sizes – 27", 36" and 48" – with overall cooking areas ranging from 675 sq. inches up to 1,357 sq. inches and BTUs ranging from 44,000 to 98,000.

- 1 LED CONTROL KNOB BEZELS**
The blue lights provide for added convenience and style while grilling.
- 2 WARMING RACK**
Stainless Steel warming rack provides a secondary cooking area.
- 3 INTEGRATED LIGHTS**
Integrated double halogen interior lights provide ample lighting to make grilling at night a breeze.
- 4 STAINLESS STEEL COOKING GRIDS**
Commercial Grade Stainless Steel Cooking grids have 5/16" thick rods to accommodate small items.
- 5 FLAVOR PLATES**
These 14-gauge stainless steel, self-cleaning plates distribute heat evenly over the entire grilling surface and produce barbecue flavor while reducing flare-ups.
- 6 TRADITIONAL BURNERS**
Quality commercial grade 16-gauge stainless steel burners.

Hybrid Burners

Briquette Burner System

SEARMAGIC COOKING GRIDS

These high-performance, reversible, rust-free, hard-coat anodized aluminum cooking grids heat up faster and cook foods at a uniform temperature. The ribbed side is perfect for steaks and burgers while the smooth side is ideal for delicate items such as fish or vegetables.

All grill models are available with or without this feature.

Ribbed Side

Smooth Side

PROFIRE GRILL LIDS

Two layers of heavy-duty stainless steel to prevent heat loss and keep the outer lid cooler. Seamless lids are accented with a polished mirror finish.

REAR INFRARED BURNER

Heats up fast to quickly put a seal around meats for juicier and more moist results. Comes with a heavy-duty rotisserie.

All grill models are available with or without this feature.

ELECTRONIC MULTIPLE SPARK IGNITION

Allows for quick, easy and reliable starts.

PROFIRE PF SERIES GRILL HEADS

Our **Professional PF Series** grill heads incorporate a contemporary, linear design with a multitude of features, style and quality construction. Made in America of durable stainless steel and available in three sizes. We also offer a variety of popular options—including our hybrid burner for greater cooking versatility and your choice of quality Stainless Steel cooking grids or our SearMagic grids.

1 STAINLESS STEEL COOKING GRIDS

Commercial Grade Stainless Steel Cooking grids have 5/16" thick rods to accommodate small items.

2 FLAVOR PLATES

These 14-gauge stainless steel, self-cleaning plates distribute heat evenly over the entire grilling surface and produce barbecue flavor while reducing flare-ups.

3 TRADITIONAL BURNER

Quality commercial grade 16-gauge stainless steel burners.

Create an entertainment area perfectly suited to your space and needs.

All of our options are specifically built to enhance your grilling experience and feature the same level of craftsmanship that we put into our grills. Made in the USA and constructed of heavy-duty 14-, 16- and 18-gauge commercial stainless steel and covered by a Limited Lifetime Warranty*.

A Insulated Sleeve

When installing the grill into an island made of combustible materials, an insulated sleeve is required

B Large Double Doors

Provides ample storage space that is both convenient and easy to access.

C Counter Trim Kit

Creates a finished look for mounted grills and sideburners

D Side Burner

Additional cooking surface for more grilling versatility

E Small Double Doors

Access to storage space available in a variety of sizes to fit your specific needs

F Triple Drawer

Perfect place to store grilling utensils, accessories and more

** Against Rust Through*

ProSear Infrared Indoor Grill

Cabinetry not included

Our US Made, Infrared stainless steel constructed ProSear Indoor Grill is the first and only of its kind on the market today.

Features:

- Stainless steel construction
- Electronic ignition, 120 volt operation automatically ignites burners
- 5/16" stainless steel rods cooking grids
- 35,000 BTU rated per-hour input
- 333 square inches total cooking area
- Limited lifetime warranty (on rust-through) on stainless steel cooking grids and stainless steel body components. 5 year warranty on infrared components and 1 year warranty on all other components.
- Stainless steel dust cover included
- Available for Natural or LP Gas application

Advantages of Infrared Burner Technology:

- Fast...heats up in approximately 5 minutes
- Intense heat-seals in meat juices for better flavor
- Time saver...heats up faster with shorter grilling time
- High intense heat reduces flare-ups by vaporizing juices instantly
